EPS-Free Packaging

We are actively seeking more sustainable packaging solutions for our products to contribute to a sustainable future.

Our packaging is made from Forest Stewardship Council certified paper-based materials with over 70% recycled content. We also use ISPM15 compliant wooden slats to enhance the durability and impact resistance of our packaging for major household appliances.

Make the sustainable choice for your freestanding cookers and built-in ovens. Choose our EPS-free packaging.

Thank you for joining us in building a greener future.

Pyrolytic Oven

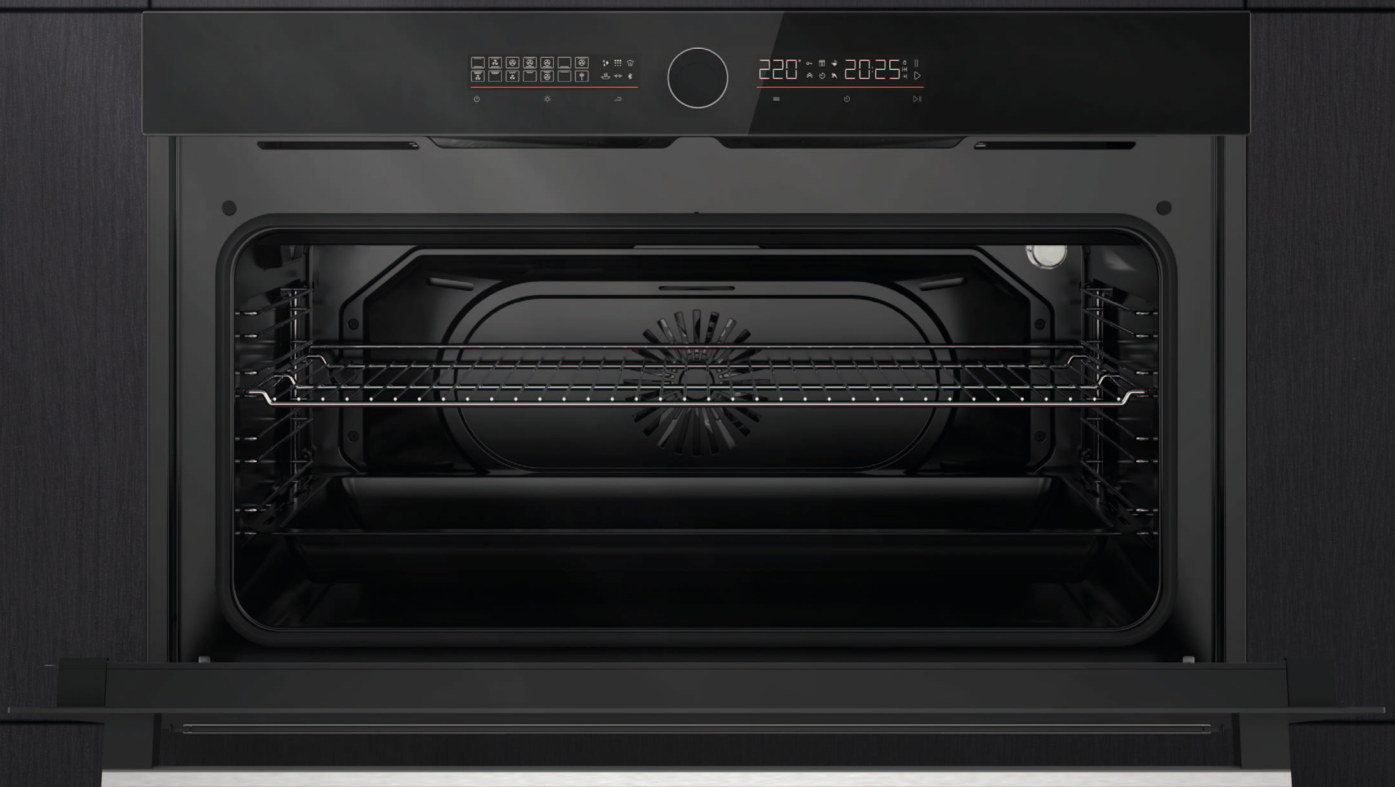

Effortless cleanliness at the touch of a button.

Hygienic. Silent. Automatic. Always immaculate.

Pyrolytic cleaning heats the oven to over 400°C, reducing grease and food residue to ash. Once the oven cools down and safely unlocks, the remaining ash can be simply wiped away.

90 cm Rossa Better

Bigger, bolder, better meet the new 90 cm ovens in our expanded Rossa Series.
