Freestanding Oven

34

Step into the future of cooking with our freestanding ovens, where innovation meets elegance to deliver outstanding performance and style.

Ceramic Burner®

The newly patented ceramic burner design distributes heat evenly and precisely throughout the cooking chamber, ensuring consistent and uniform cooking. By minimizing temperature differences, it delivers the same cooking performance across every part of the product. With its modern and elegant design, the patented ceramic burner adds a premium touch and strengthens the overall sense of quality. Its smooth, durable surface resists dirt and grease build-up, making cleaning quick and effortless.
