It's About Creda

Creda started life in Stoke on Trent in 1919 and produced the first cooker in 1933.

Creda have always been at the forefront of safety, innovation, and technology and those tried and tested philosophies are as relevant today as they have always been down the years.

Designed in Britain and respecting the traditions of its heritage the Creda range of Free-Standing Cookers deliver great cooking results by combining the latest technologies, with easy to use features.

The stylish good looks of a Creda cooker make a wonderful addition to your home and your family.

Big Reasons to Choose Creda

New, Enhanced range of Creda cookers, ovens, hoods and hobs expertly designed for the way we live today.

With Creda you can be sure of a high quality cooking appliance, designed to cook all your favourite foods beautifully.

You'll also find that Creda's cookers, range cookers, ovens, hoods and hobs are perfect for today's lifestyles. They're flexible enough to cope with everything from a large family Sunday roast to heating up ready meals during the week. They are also easy to clean and easier to use.

In this brochure you'll find a variety of styles, colours, fuel options and configurations something to suit every taste and every kitchen.

Cookability

Creda cookers, range cookers, ovens, hoods and hobs gives you the power, speed and flexibility to create the meals you want, the way you want them.

For example, one of the most infuriating elements of cooking is the time it takes to heat up the oven or hob. We have numerous features on selected models, which significantly reduce the time to heat up hobs, grills and ovens.

Conventional Oven - Heat sources above and below the food for traditional cooking. Ideal for meals such as pies and pastries.

Fan Assisted / Air Fryer Function - Heat sources above and below whilst fan circulates the air giving more even temperature.

True Fan Oven - Reduces preheat, cooking time and temperature by up to 20%.

Pro Cook - Heat sources above and below plus the true fan oven creates intense roasting function ideal for succulent joints and crispy roast potatoes.

Pizza Function - Heat source below plus the true fan oven is ideal for cooking pizzas and open topped pastry such as tarts.

Spit Roast - Heat sources above plus the true fan oven creates rotisserie style dishes.

Electric Grill - Heat sources above and below. From toast to T-bone your infrared grill will give you perfect results every time.

Fast Grilling - Heat sources above plus grilling.

Fan Grilling - The grill element generates heat whilst the fan circulates the hot air around the food giving superb even cooking.

Fan Grilling Pro - Heat sources above plus grill and fan. It's the perfect setting for sizzling and searing.

Browning Function - Heat sources above is ideal for browning food and melting.

Blind Baking - Heat sources below ideal for making blind baking pastry, creates the perfect pie crust.

Defrost - Pushes ambient air around frozen food allowing you to defrost safely.

Slow Cooking - Low temperature cooking which also doubles as a keep warm function.

Steam Clean - Environmentally friendly cleaning system. Helps with the removal of most stubborn stains.

Creda
HOME APPLIANCES

Adaptability

Adaptability is a must for modern life. You may be cooking a roast on Sunday, but you're just as likely to be heating up several different ready made meals on Monday!

Creda helps you achieve the most from your cookers, range cookers, ovens, hoods and hobs - faster, and in the most economical way.

Multifunction - The flexibility of having several different modes of cooking.

Multi Cavity - Additional cooking capacity with double ovens and range cookers

Separate Grill - Flexibility of having the grill separate from the oven.

Multi Cavity Ovens

Our multi cavity ovens provide you with more flexibility when cooking, allowing you to prepare several dishes at any one time, increasing the efficiency of your oven.

Cleanability

The least fun part of any meal is the cleaning up afterwards. That's why we make our ovens and hobs as easy to clean as possible.

Creda products have been designed with smooth, easy-to-wipe surfaces and have features such as **Backtoblack Glass** even if your oven is not clean as you'd like it to be no one would be any wiser.

Easy Clean Enamel - All our ovens come fitted with Creda clean enamel.

Main Oven Internal Fittings - Easily removable and washable.

Steam Clean - Environmentally friendly system that removes the most stubborn stains.

Controlability

Creda cookers, range cookers, ovens, hoods and hobs should do exactly what you expect it to do. Creda cooking appliances do what's asked of them, time after time, year after year. Accurate temperatures, positive controls and simple to use timers give you the precision you need.

Electronic Programmable Timer - Clearly marked electronic programmable timer and minute minder for ease of use.

Electronic Clock and Minute Minder - Clearly marked electronic clock and minute minder for ease of use.

Easy-to-Use Controls - Easy-to-grip control knobs and clear durable graphics making all controls easy to read.

Touch Screen - The touch screen interface helps to achieve perfect cooking results.

Is All About Family Values. Now More Than Ever.

The kitchen is no longer just a culinary space, it's the hub of the home, it's a place where memories are made.

At Creda, we understand the kitchen has become the family hotspot and the importance of creating a safe, welcoming environment that brings people together.

We love to celebrate people; and with different people come different requirements. We have used this knowledge to shape the way we design our products, always keeping family values and safety at the heart of the design process. Whatever you're looking for, you'll find it at Creda.

We invite you to explore our range of products from built-in single ovens, perfect in a more compact kitchen; right the way through to our stunning range cookers. With a variety of colours, styles, fuel options and configurations to suit every taste, there truly is something for everyone.

Everything you'd expect from a Creda!

1 Year Warranty

back2black Glass

Modern day life is busy, and we appreciate the value of time. We want to encourage people to live life to the fullest, and spend quality time with family and friends creating memories.

We don't want you to worry about whether or not your oven is freshly cleaned and shining, so with Back2Black technology, you don't have to either!

The Creda Back2Black glass feature is not only an exclusive addition to your kitchen, but it allows you to clearly see inside your oven when you are cooking and then conveniently turn back to its original black colour when it isn't, obscuring the insides and presenting your home with a fresh, clean looking oven. What's not to love?

WOK Burner

The ultimate cooking tool for those who prefer a gas hob.

Equipped with a double ring burner, this hob really allows you to excel in your hob cooking. The careful design allows the largest of pots and pans to comfortably sit on the hob, without the risk of wobbles or spills!

Perfect for Stir-fries, Ramen or any type of hob cooked dish.

Ceramic Top Hob

Sleek, sophisticated and easy to clean, what more could you ask for in a hob?

Crafted with the finest products in the world's most famous glass factories, you can relax knowing these are designed for years of trouble-free service, saving you extra time you can spend relaxing, making memories or composing your next new recipe!

Various Oven Cavity Sizes

Whether it is versatility, economy, or large cooking space you are looking for Creda has it all.

These combined with an array of functions will help you get it right, every time.

80 Lt. Big Cavity

Christmas dinner? Sorted!

With the phenomenal 80ltr oven cavity, the 'Christmas Dinner scaries' are no more!

With a huge capacity for food, you will never have to worry again about whether or not your Christmas dinner will fit in the oven. Created to assist everyday living for any family dynamic, the 80 ltr cavity is a show stopper.

Touch Control Programmer

Keep your kitchen one step ahead with this stylish and savvy touch-technology panel. Get that high-end quality appearance with the reliable, safe and hassle-free guarantee that comes with any Creda product.

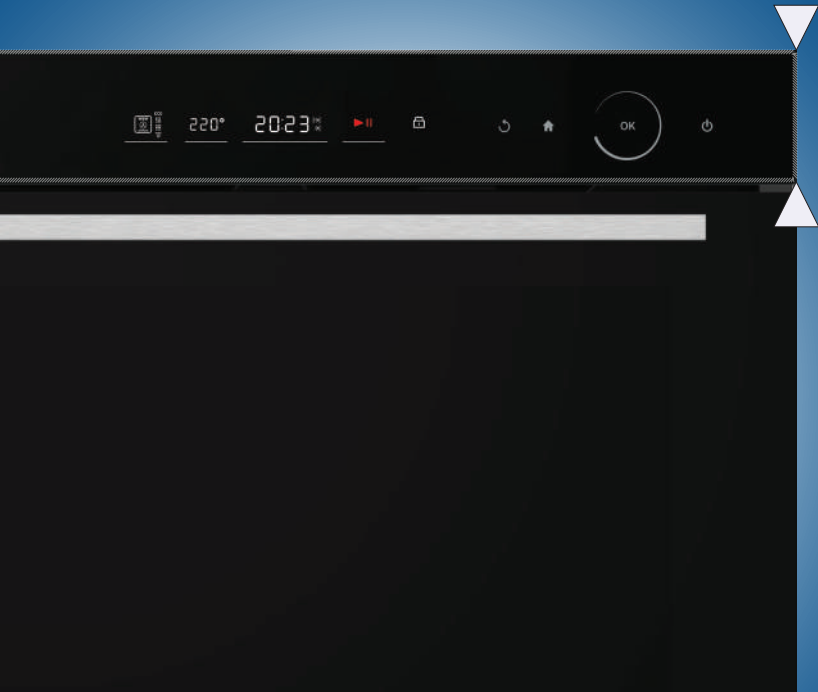

Designed and tested to ensure the best user experience; this easy to use, responsive touch panel will digitize your kitchen in the best way.

Slim Panel

The slimmest, sleekest, and most sophisticated control panel to date. It's perfect in a minimalist kitchen, or for those who enjoy the subtle things in life. This narrow-crafted panel oozes elegance, making it a guaranteed conversation starter.

You won't be shy of compliments with this addition to your home!
